

2010 Market Share

Sol to Seed Farm grows an abundance of vegetables and herbs, here on our farm, located in the Snoqualmie Valley. We use natural, sustainable methods only. No synthetics, herbicides, pesticides or GMO's. Our farm is a member of the Certified Naturally Grown co-op of farmers, which uses the USDA Organic Standards as a starting point, and seeks to provide an alternative certification to its members. You can read more at www.naturallygrown.org. All of our vegetables and herbs are grown on our farm; we do not supplement items from other sources.

Market Share –

The market share is being offered for those of you that like visiting us at the Farmers Markets or would like an alternative to a weekly CSA box. The Market Share will work as a banked account that will draw down with each purchase you make from our farm stand. There will be a \$150 minimum, however, you can start with any amount above that level and add to your account as the season progresses. When you visit us at the Phinney Ridge or Meadowbrook Market – after you've made your first payment – you can shop for the produce you want that week. We'll simply total your purchase for that day and then subtract the amount from your 'bank'. As a Market Share Member, you'll receive a 5% discount on your produce each time you visit.

Payment -

You can either pay by check or visit our website: www.soltoseedfarm.com and pay by credit card using our secure checkout.
